YONDRNext.

A guide for parents and guardians

Help your young person build skills and explore their next step towards work.

Ages 16 to 25 **Free membership and core online learning**

YONDRNext.

What membership offers your young person

A place to explore careers and build skills at their own pace, whether they're studying, working or deciding what comes next.

Core online learning

Explore banking, insurance, investments and financial services. Build technical knowledge and commercial awareness.

Career Navigator

See which roles match their interests, what employers look for and what they could learn next.

Skills for working life

Practise communication, teamwork and professional judgement, and learn to explain what they can bring to an employer.

Professional community

Learn from people at different career stages through events, workshops and mentoring as they become available.

Free to get started

Membership and core online learning are free. Your young person can start without making a purchase.

YONDRNext.

Safeguarding at 16 and 17

A parent or guardian must approve membership, event participation and any payments.

Joining	Approve their membership before they join. Talk about what they want to get from YONDRNext. and who they can turn to if anything makes them uncomfortable.
Attending events	Check who runs the event, where it takes place and how it is supervised. For online events, ask how participants interact and whether the session is recorded.
Making payments	Check the total cost and what it covers before approving a payment. Membership and core online learning are free.

Ask about mentoring

Ask who will be present, how under-18 sessions are supervised and how to raise a concern.

When they turn 18

The parent or guardian approval requirement ends.

If something feels wrong

If they feel unsafe or receive inappropriate contact, encourage them to stop the interaction and tell a trusted adult. Contact YONDR. through yondr.org and say what happened and which activity was involved. In an emergency, contact local emergency services.

YONDRNext.

Why we offer YONDRNext. for free

We want young people to develop skills employers look for, whatever their family can afford to spend on training.

Our commercial interest

We hope some members will choose to pay for these as their careers develop.

- **A YONDR. professional qualification**
- **A skills workshop**
- **Paid Professional Membership**

Each is optional. The core online learning stays free to access through YONDRNext. membership.
